Introduction

If you can remember you have accomplished the PPST Beginning Teacher Indicators Survey covering 4 Domains when you took your 2E-EDUC 3 in the previous term. This time you will honestly assess yourself based on your perceived mastery of the indicators covered by the seven (7) Domains and corresponding 37 strands of the Proficient Teacher (Career Stage 2) of the PPST after successfully completing prerequisite

professional educational courses in your CTP Online. Your responses somehow would serve as yardstick on your readiness and/or preparedness to handle teaching assistantship tasks in your Field Study and/or to pass the Licensure Examination for Professional Teachers.

For each competency, there are four possible levels of mastery (i.e. Novice, Apprentice, Practitioner, and Expert). You will use this matrix to rate your level of mastery of each competency prior to studying this course. For each competency, please tick what best describes your level of mastery. Then, consolidate your responses on the summary table prepared below.

After your self-assessment, you are expected to develop your personal and professional development learning plan to improve on your weak areas of competency and progress into a Highly Proficient Teacher (Career Stage 3) until eventually towards becoming a Distinguished Teacher (Career Stage 4).

Legend:
Novice – means I cannot do this yet but I would like to learn.
Apprentice – means I can do a little and am still learning how to do this.
Practitioner – means I can do this well but I think I need to learn, practice and improve more.
Expert – means I can do this very well and have confidence to demonstrate to others.

Part II. Reflections:

1. Generally, how did you fare on the self-assessment survey of the Proficient Teacher Indicators? Which domain/s are your strong at? Weak at?

I did poorly, as I felt that I have much to learn from both my current experience here in DepEd, as well as when I learn from my professors in these courses from CTP. I am mostly strong with Content, Knowledge, and Pedagogy as I have developed a distinct style of teaching and honed my expertise and know-hows in the subject areas I have handled previously. But for the rest of the domains, I considered myself weak amongst such because I have acclimated myself to the tertiary level of educational culture where students are able to regulate themselves without needing more coaching, as well as a teacher-centered academic freedom.

2. Prepare a written text of 300-500 words, explaining the importance of the Professional Development (PD) activities you will undertake for each Domain/Strand of the PPST Career Stage 2.

Stepping into the role of a Proficient Teacher feels like a fresh start for me. While I have over six years of experience teaching at the college level, my self-assessment shows that teaching younger students in the DepEd system requires a very different toolkit. Professional Development (PD) isn't just about ticking boxes for me; it's about unlearning old habits and picking up the specific skills I need to truly help my students succeed.

In Domain 1 (Content Knowledge and Pedagogy), I feel like I'm on solid ground with my subject matter. However, I still marked myself as an "Apprentice" in many areas because knowing the material is different from knowing how to teach it effectively to a Grade 7 or SHS class. PD activities will help me move past just "lecturing" and teach me how to use research-based strategies that actually stick with younger learners.

The areas where I need the most help are Domain 2 (Learning Environment) and Domain 3 (Diversity of Learners). In college, students are expected to be independent, but I've realized that younger learners need much more guidance, structure, and emotional support. I rated myself as a "Novice" in managing classroom behavior and creating safe spaces. PD is vital here because I need to learn how to handle a diverse classroom—including students with different backgrounds and needs—without relying on the "teacher-centered" style I used in the past.

Finally, Domains 4 through 7 remind me that being a teacher is about more than just what happens during the lesson. I need to get better at planning sequenced lessons, using data to track student progress, and building real relationships with parents and the

community. Right now, I'm still figuring out how to communicate progress to stakeholders and how to align my goals with the PPST standards. By focusing on these PD activities, I'm not just trying to pass a test or finish a requirement. I'm trying to bridge the gap between being a "subject expert" and being a truly effective, supportive teacher for every student who walks into my classroom.

Part 1II: Goal Setting and Action Planning

Note: Please refer to your responses on the PPST Survey above when accomplishing the table below.

PPST Domain & Strand	**Target for Improvement Please indicate code number and the indicator)**	**Level of Current Competency (Novice, Apprentice, Practitioner)**	**Action Plan**			
			Activity	Time Frame	Resources Needed	Persons Involved
Domain 2: Learning Environment (Strand 2.6)	2.6.2 Manage learner behavior constructively by applying positive and non-violent discipline.	Novice	Attend LAC sessions on Positive Discipline and observe veteran teachers' classroom management techniques	Feb - April 2026	DepEd Child Protection Policy Manual, Observation logs	School Head, Master Teacher, Fellow Teachers
Domain 3: Diversity of Learners (Strand 3.1)	3.1.2 Use differentiated, developmentally appropriate learning experiences.	Apprentice	Research and create "Learner Profiles" to design activities that match different learning styles.	Year-round 2026	Learner Data, Differentiated Instruction modules	Students, Guidance Counselor
Domain 4: Curriculum & Planning (Strand 4.1)	4.1.2 Plan and implement developmentally sequenced teaching	Novice	Participate in collaborative lesson planning (Unit Mapping) to ensure lessons flow	Every Quarter	Curriculum Guide (CG), MELCs, Daily Lesson Log (DLL)	Department Head, Subject Teachers

	and learning processes.		logically for younger learners.			
Domain 5: Assessment & Reporting (Strand 5.2)	5.2.2 Monitor and evaluate learner progress and achievement using attainment data.	Apprentice	Create a digital tracking system to log formative assessment scores and identify students who need remediation.	Ongoing	E-Class Record, Assessment Tools	Teacher, Students
Domain 6: Community Linkages (Strand 6.2)	6.2.2 Build relationships with parents/guardians and the wider school community.	Novice	Conduct regular parent-teacher conferences and use communication apps to keep families updated on student progress.	Monthly/Quarterly	Progress Reports, Communication App (e.g., Messenger/Viber)	Parents, Guardians, Brgy. Officials
Domain 3: Diversity of Learners (Strand 3.1)	3.1.2 Use differentiated, developmentally appropriate learning experiences.	Apprentice	Research and create "Learner Profiles" to design activities that match different learning styles.
